

Christian Foyer

COO of Audi Formula Racing GmbH

Christian Foyer was born in Aachen in 1977. He earned a bachelor's degree in international economics from the University of Hohenheim, then specialized in combustion engines and technical management at the University of Stuttgart, graduating with an engineering degree in 2005.

For nearly two decades, Christian Foyer held roles in operations and project management with various automobile manufacturers and Formula 1 teams. He became known for designing and implementing lean, efficient development and production processes for engines and transmissions.

As COO (Chief Operating Officer) of Audi Formula Racing GmbH, Christian Foyer has overseen and driven the operational processes of the F1 project at the Neuburg site since May 2025.
