Audi in India (Aurangabad)

Facts & Figures (as of December 31, 2022)
- Audi start of production: 2007
- Managing Director: Piyush Arora
- Site area: 25,100 square meters

Current model series at location
Audi A4, Audi A6, Audi Q5, Audi Q7

Profile of location
AUDI AG has been producing cars at its Aurangabad site in the Indian state of Maharashtra since September 2007. Currently, the Audi A4 Sedan*, the Audi A6 Sedan*, the Audi Q5, and the Audi Q7 are manufactured at the Skoda Auto Volkswagen India Private Limited (SAVWIPL) factory for the Indian market.

Sustainability
The plant in Aurangabad has been using only green energy since 2022, reducing CO₂ emissions by 48 percent. Around 36,000 trees in the Oxygen Park and Green Hub are living proof of the Aurangabad site’s promise to preserve and increase natural capital: the trees enhance the green spaces in the Shendra Industrial Zone, contributing significantly to biodiversity.
The Audi Group is one of the most successful manufacturers of automobiles and motorcycles in the premium and luxury segment. The brands Audi, Bentley, Lamborghini, and Ducati produce at 22 locations in 13 countries. Audi and its partners are present in more than 100 markets worldwide.

In 2022, the Audi Group delivered 1.61 million Audi vehicles, 15,174 Bentley vehicles, 9,233 Lamborghini vehicles, and 61,562 Ducati motorcycles to customers. In the 2022 fiscal year, AUDI Group achieved a total revenue of €61.8 billion and an operating profit of €7.6 billion. Worldwide, more than 87,000 people worked for the Audi Group in 2022, over 54,000 of them at AUDI AG in Germany. With its attractive brands, new models, innovative mobility offerings and groundbreaking services, the group is systematically pursuing its path toward becoming a provider of sustainable, individual, premium mobility.
Fuel/electric power consumption and emissions values** of the models named above

**Audi A4 Sedan**
Combined fuel consumption in l/100 km: 7.1–4.0 (33.1–58.8 US mpg);
combined CO₂ emissions in g/km: 162–104 (260.7–167.4 g/mi)

**Audi A6 Sedan**
Combined fuel consumption in l/100 km: 7.6–4.3 (30.9–54.7 US mpg);
combined CO₂ emissions in g/km: 173–114 (278.4–183.5 g/mi)

**The indicated consumption and emissions values were determined according to the legally specified measuring methods. Since September 1, 2017, type approval for certain new vehicles has been performed in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO₂ emissions. Since September 1, 2018, the WLTP has gradually replaced the New European Driving Cycle (NEDC). Due to the more realistic test conditions, the consumption and CO₂ emission values measured are in many cases higher than the values measured according to the NEDC. Additional information about the differences between WLTP and NEDC is available at www.audi.de/wltp.**

At the moment, it is still mandatory to communicate the NEDC values. In the case of new vehicles for which type approval was performed using WLTP, the NEDC values are derived from the WLTP values. WLTP values can be provided voluntarily until their use becomes mandatory. If NEDC values are indicated as a range, they do not refer to one, specific vehicle and are not an integral element of the offer. They are provided only for the purpose of comparison between the various vehicle types. Additional equipment and accessories (attachment parts, tire size, etc.) can change relevant vehicle parameters, such as weight, rolling resistance and aerodynamics and, like weather and traffic conditions as well as individual driving style, influence a vehicle’s electric power consumption, CO₂ emissions and performance figures.

Further information on official fuel consumption figures and the official specific CO₂ emissions of new passenger cars can be found in the “Guide on the fuel economy, CO₂ emissions and power consumption of all new passenger car models,” which is available free of charge at all sales dealerships and from DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen, Germany (www.dat.de).
