## **Mike Rockenfeller is best Audi driver at the EuroSpeedway**

- **Fourth place in front of 79,000 spectators**
- **First points of the year for Martin Tomczyk**
- **Timo Scheider in the points after recovery**

**Ingolstadt/Klettwitz, June 6, 2010 – Mike Rockenfeller was the best Audi driver at the third DTM round at the EuroSpeedway Lausitz. The 26-year-old racer from Audi Sport Team Phoenix clinched fourth place after battling in front of 79,000 spectators and headed straight for the 24-hour race at Le Mans immediately afterwards.**

Rockenfeller held up to the pressure exerted by Hockenheim winner Gary Paffett in the first two thirds of the race. After the second mandatory pit stop the young German managed to put a distance between himself and his immediate rival and ultimately crossed the finish line with a four-second advantage over the Briton. In addition, “Rocky” shone by setting the absolutely fastest race lap.

“Mike (Rockenfeller) showed a great performance in the 2008-spec car, he was very strong here throughout the weekend,” commented Head of Audi Motorsport Dr. Wolfgang Ullrich. “But that is only small consolation for the fact that we lost our best-placed cars in the championship as a result of a brand-internal collision on the first lap – that’s a nightmare which mustn’t happen.”

Valencia winner Mattias Ekström, who had started into the race from position three, was hit in the rear by Alexandre Prémat shortly after the start and forced into a spin. David Coulthard in the next car was unable to avoid a collision. Ekström’s car was so heavily damaged by the impact that the Swede was forced to retire in the pits. For Alexandre Prémat, who clearly admitted being at fault in the incident, the race was over prematurely as well.

In addition, title defender Timo Scheider became entangled in the collision between Prémat and Ekström. After having dropped to 15th place the German managed to

fight his way back into the points again. More than eighth place, however, was no longer possible for the two-time DTM Champion who had shone with a strong race simulation during the warm-up in the morning.

The vehicles of Martin Tomczyk, Oliver Jarvis and Miguel Molina were damaged in the commotion on the starting lap as well. Martin Tomczyk (Audi Sport Team Abt Sportsline) in sixth place scored his first points this year nevertheless. Markus Winkelhock (Audi Sport Team Rosberg) completed the top ten after a strong fighting race into which he had started from position 15.

Next weekend, the 24-hour race at Le Mans is on the agenda for Audi. The DTM will continue at the Norisring in Nuremberg on July 4.

The Audi Group sold around 950,000 cars of the Audi brand in 2009. The Company posted revenue of €29.8 billion and an operating profit of €1.6 billion. Audi produces vehicles in Ingolstadt and Neckarsulm (Germany), Győr (Hungary), Changchun (China) and Brussels (Belgium). Aurangabad in India saw the start of CKD production of the Audi A6 at the end of 2007 and of the Audi A4 in early October 2008. Production of the new Audi A1 has been running at the Brussels plant since May 2010. The Company is active in more than 100 markets worldwide. AUDI AG's wholly owned subsidiaries include AUDI HUNGARIA MOTOR Kft., Automobili Lamborghini Holding S.p.A. in Sant'Agata Bolognese (Italy) and quattro GmbH in Neckarsulm. Audi currently employs around 58,000 people worldwide, including 45,500 in Germany. Between 2010 and 2012 the Audi Group is planning to invest around €5.5 billion, mainly in new products, in order to sustain the Company's technological lead embodied in its "Vorsprung durch Technik" slogan. By 2015, Audi plans to increase the number of models in its portfolio to 42.

Audi has long been fulfilling its social responsibility on many levels – with the aim of making the future worth living for generations to come. The basis for Audi's lasting success is therefore formed by environmental protection, the conservation of resources, international competitiveness and a forward-looking human resources policy. One example of AUDI AG's commitment to environmental issues is the newly established Audi Environmental Foundation.
