## Quotes after the race at Oschersleben

**Ingolstadt/Oschersleben, May 18, 2014 – Two Audi drivers on the podium at Oschersleben: quotes from the Audi camp following a ‘crazy’ DTM race.**

**Dr. Wolfgang Ullrich (Head of Audi Motorsport):** “The DTM fans got to see plenty of action: fierce duels, slips, overtaking maneuvers and a gamble with the strategies that in the end rewarded those who took particularly high risks. With Mike (Rockenfeller) and Edo (Mortara) we were fortunate while others unfortunately went unrewarded although they drove great races. On the whole, our RS 5 DTM made a strong showing this weekend.”

**Dieter Gass (Head of DTM):** “Without any exaggeration: It was really very turbulent, from the beginning to the end. Whenever the cars are on the grid and rain sets in there’s boundless uncertainty. Further into the race, with the heavier rain and the safety car periods, the spectators were treated to plenty of action. We’ve got two Audi drivers on the podium – Mike (Rockenfeller) and Edoardo (Mortara). That’s a good result but I’m still a bit disappointed. For long stretches, it was possible for us to win on our own strength. Until shortly before the end we were running in front and still didn’t manage to win.”

**Mike Rockenfeller (Schaeffler Audi RS 5 DTM), 2<sup>nd</sup> place**

**Tires: standard/rain/rain**

“The race was chaotic, I’m very happy with my podium finish. Halfway through the race, the situation for me didn’t look as though we’d be scoring points. ‘Thank you’ to all the people who made the decision to call me into the pits at the right time. I just tried to bring my car home undamaged.”

**Edoardo Mortara (Audi Sport Audi RS 5 DTM), 3<sup>rd</sup> place**

**Tires: standard/rain/rain**

“A great feeling after such a disappointing year. We could have already been on podium at Hockenheim. Today, even more than third place would have been possible. When we fitted the second set of rain tires the inflation pressure was very low and initially I wasn’t able to build up any grip. I battled to finish my race. Third place is a good result.”

**Miguel Molina (Audi Sport Audi RS 5 DTM), 6<sup>th</sup> place**

**Tires: option/rain/rain**

“It was a good race for me. After I clinched the pole position yesterday we unfortunately had to start from the very rear today. Advancing from the last position to sixth place in this crazy race is really good. On the whole, I’m happy because I drove a good race and at Budapest we’re hopefully going to be just as fast.”

**Timo Scheider (AUTO TEST Audi RS 5 DTM), 7<sup>th</sup> place**

**Tires: option/rain/rain**

“A disappointing result! Like at Hockenheim, we were headed for a podium and finished in seventh place – we can’t be happy with that. Today, the safety car periods ruined our race. It’s disappointing to suffer misfortune twice in succession. On a positive note, though, we had the speed. I’m not going to settle for that. Although seventh place gives me important points it’s not what I’d been hoping for.”

**Adrien Tambay (Playboy Audi RS 5 DTM), 10<sup>th</sup> place**

**Tires: option/rain/rain**

“I still can’t completely come to grips with it. I started from second place and after the safety car suddenly found myself in tenth place again. Obviously, I’m pretty unhappy about that. We did a good job and could have finished on the podium again. That’s a real shame. But at least we were able to score points twice in succession. We’re going to continue to give everything and are hoping to be more fortunate in the next race.”

**Mattias Ekström (Red Bull Audi RS 5 DTM), 13<sup>th</sup> place**

**Tires: standard/rain/rain**

“I’ve got to take the time to look at the race again. But from my point of view there were a lot of accidents, a lot of safety car periods and a lot of bumpers contacting each other.”

**Nico Müller (Audi Financial Services RS 5 DTM), 16<sup>th</sup> place**

**Tires: standard/rain/rain**

“I had a good start but when the rain got heavier running on standard tires was extremely difficult – the drivers on option tires of course flew past us. But compared to the other drivers on standards I was running well. After switching to rain tires I initially was struggling a bit until the temperature was right. Then, when the safety car period started, it was extremely hard to even maintain an overview of the situation and with our pit stop we weren’t very fortunate, which caused us to lose a lot of ground. When I finally tried to approach Ekström I lost another position. But I learned a lot in these difficult conditions and it was great fun.”

**Jamie Green (Hoffmann Group Audi RS 5 DTM), 18<sup>th</sup> place**

**Tires: option/rain/option**

“A long story. My pace was good, I was running in front with a large advantage. Then the safety car was deployed and the field was pushed together. Following the safety car period, I was initially able to pull ahead but then had to make my mandatory pit stop. We opted for slicks, which was the right choice. I still overtook (Gary) Paffett and (Martin) Tomczyk. I was on Miguel’s (Molina) heels and in the chicane put on a bit too much pressure. That caused me to lose control of the rear and to retire on the last lap, which is very painful. But I showed my ability and my speed today, which was positive for me and for the team because this was only my second race with Team Rosberg.”

**Hans-Jürgen Abt (Team Director Audi Sport Team Abt Sportsline):** “A totally crazy race with many highs and lows. But in the end we’re pleased because we scored points and the season is still long. For the fans, it was a very interesting race. We’re very happy with Miguel Molina. He started from the last position and finished in sixth place – that’s a superb result and a little compensation for the qualifying session.”

**Ernst Moser (Team Director Audi Sport Team Phoenix):** “We scored points with both cars, both drivers drove good races. It was a gamble this time. We had to choose different strategies with both cars so that it would work out with one driver. Timo (Scheider) was in contention for a long time but after the safety car period his chance of taking a podium was gone. ‘Rocky’ (Mike Rockenfeller) was running at the rear in the beginning and in the end mounted the podium. We did a lot of things right today. When you’re traveling to Budapest as the leader of the drivers’ and teams’ standings you can be happy.”

**Arno Zensen (Team Director Audi Sport Team Rosberg):** “Misfortune has still not left us. Jamie (Green), from my point of view, drove a sensational race. The safety car killed him. The decision to switch to slicks at the end wasn’t wrong, but the excursion shortly before the end was of course a shame. Nico (Müller) first had to learn how to drive a DTM car in the rain. It was going pretty well for him and in tenth place he was already nibbling on points. Then the spin happened. But you can’t fault him for that. As I said before – he drove the RS 5 DTM in rain for the first time today.”

– End –

The Audi Group delivered approximately 1,575,500 cars of the Audi brand to customers in 2013. In 2013, the company reported revenue of €49.9 billion and an operating profit of €5.03 billion. The Audi A3 is “World Car of the Year” (fuel consumption figures Audi A3: Combined fuel consumption in l/100

km: 7.1 – 3.2; Combined CO<sub>2</sub>-emissions in g/km: 165 – 85). The company operates globally in more than 100 markets and has production facilities in Ingolstadt and Neckarsulm (Germany), Győr (Hungary), Brussels (Belgium), Bratislava (Slovakia), Martorell (Spain), Kaluga (Russia), Aurangabad (India), Changchun (China) and Jakarta (Indonesia). Since the end of 2013, the brand with the Four Rings has also been producing cars in Foshan (China). In 2015, Audi will start production in São José dos Pinhais (Brazil), followed by San José Chiapa (Mexico) in 2016. Wholly owned subsidiaries of AUDI AG include quattro GmbH (Neckarsulm), Automobili Lamborghini S.p.A. (Sant'Agata Bolognese, Italy) and Ducati Motor Holding S.p.A. (Bologna, Italy), the sports motorcycle manufacturer. The company currently employs more than 73,500 people worldwide, of which more than 52,500 in Germany. Total investment of around €22 billion is planned from 2014 to 2018 – primarily in new products and sustainable technologies. Audi is committed to its corporate responsibility and has anchored the principle of sustainability for its products and processes in its strategy. The long-term goal is CO<sub>2</sub>-neutral mobility.
